Support for families during the Christmas closure

Dear Parents/Carers,

As we approach the school break, we would like to ensure that all our families have access to the right support should they need it during this time. Enclosed with this letter are some important contact numbers and services in the local area. We are sharing this information as a reminder that help is available, and to reassure families that they are not alone if they need advice or support while school is closed. I hope that you have a very enjoyable break with your families.

Kind regards,

Mrs C Holgate

Headteacher, Barden Primary School
