

Swans

Maths

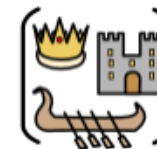

Within our shape unit pupils will be learning about Symmetry. Within our number unit pupils will be learning about addition and subtraction.

History

The 1960s

Pupils will be learning about what life was like in the 1960s. Pupils will learn about key people and events. They will also explore music, dance and art from the 60s.

Science

Plants

Pupils will be learning about how temperature impacts plant growth. They will be then planting their own seeds for an experiment.

Art

Drawing

Pupils will be exploring mark making using different resources and materials. Pupils will also be learning how to complete an observational drawing.

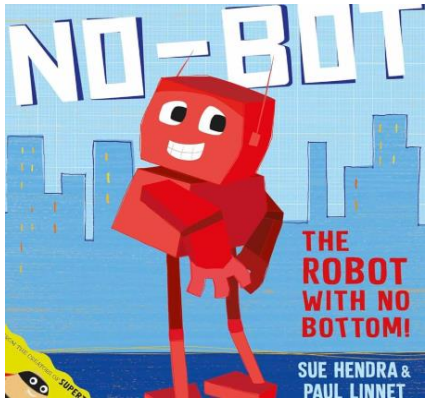

English

Pupils will be reading the text 'No-Bot' and writing a description about the character. Pupils will then write a set of instructions on how you can build a robot.

Spring 2

Class Novel:

PE

Basketball and OAA
In Basketball pupils will learn how to pass and dribble with accuracy and control. OAA will focus on team work skills.

ENRICHMENT

Our curriculum is enriched by our THRIVE approach to learning.

**Computing
Digital Writing**

Pupils will be learning how to use a laptop safely and correctly. They will be learning how to create writing digitally.

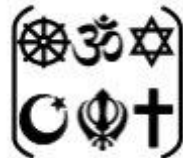

**Music
The 1960s**

To link to our History unit, pupils will be exploring music from the 1960s. Pupils will be learning how to listen and play back a beat.

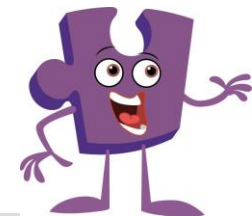

**RE
Hinduism**

Pupils will be learning about Hinduism. They will be learning about the key teachings and facts about the religion.

**PSHE
Relationships**

Pupil will learn about and discuss families. They will learn how to be a good friend, and how we can resolve conflicts.

PLOT

We are working towards our personalised learning targets every day.
